Applicant: Edward Roberge

Location: Concord
Main Street

Project Description: Street improvements, Maintenance work from the intersections of N Main st @ Stours St to The intersections of S Main St @ Stours St in the City of Concord NH

The NH Natural Heritage database has been checked by staff of the NH Natural Heritage Bureau and/or the NH Nongame and Endangered Species Program for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government.

It was determined that, although there was a NHB record (e.g., rare wildlife, plant, and/or natural community) present in the vicinity, we do not expect that it will be impacted by the proposed project. This determination was made based on the project information submitted via the NHB Datacheck Tool on 10/19/2011, and cannot be used for any other project.
